## Population

A region's economy thrives or dives because of the people who choose to live there. That choice may occur by being born there and desiring to stay, or a more deliberate one of choosing to relocate from somewhere else. Monitoring change in the size and movement of population is an important barometer of well-being. Some of us monitor these changes as an insect might gauge the shifting sands while most don't pay much attention. But the barometer is a good metaphor for population change since it can presage more notable events, such as lackluster business attraction due to lack of workers.

Population Over Time					
	1988	1993	1998	2003	2008
Total Population	41,805	43,532	45,568	45,786	46,709
Change Since 1988		1,727	3,763	3,981	4,904
Pct. Change Since 1988		4.1%	9.0%	9.5%	11.7%

Components of Population Change 2007 to 2008	
	Number
Net Domestic Migration	-239
International Migration	109
Natural Increase (births minus deaths)	279
Births	687
Deaths	408

A bar chart titled "Components of Change" showing the breakdown of population change from 2007 to 2008. The x-axis lists the components: Domestic Migration, International Migration, and Natural Increase. The y-axis represents the number of people, ranging from -300 to 400. The bars are colored blue for Domestic Migration, red for International Migration, and green for Natural Increase.

Component	Number
Domestic Migration	-239
International Migration	109
Natural Increase	279
